

A Walk in My Shoes

Art Activity

The goal of this activity is to help you deeper connect with yourself and to communicate your favorite things with others. This activity can help friends, families and peers to build stronger connections around common interests.

Instructions: Choose the shoes that represent you on the next page and fill in the guided prompts. You can color and decorate your shoe however you'd like! If you're working with a group, take turns sharing your decorated shoes and the answers to the guided prompts with each other.
